

Not to Scale

- Label Requirements**
1. Production date code
 2. Batch code
 3. Voltage rating
 4. Crystal Technica logo
 5. Part Number

Specifications:

Time to 1180°C: < 17.0 Seconds @ 120 volts ±0.5v
 Cold Resistance: 9 - 17 Ohms (Ref)
 Voltage: 120 volts +10% -15%
 Power Rating: 110 - 170 Watts
 Temperature @ 102 volts ±0.5v > 1080°C

Notes:

- a. Ceramic Insulator body glazed 90%-95% alumina
- b. Cable - U/L Spec - temperature rating 450°C
- c. Every component of this assembly shall withstand a load > = 5Kg
- d. All parts to be clean and free access adhesive

Star symbol ★ denotes critical dimension
 Tolerance: ± 1.0 mm unless otherwise stated
